SHARING THE BEST WE HAVE TO OFFER

UNPARALLELED QUALITY DEHYDRATED CITRUS

Made with love in the Loskop Valley

Schoonbee Landgoed is situated in Groblersdal, nestled in the heart of the flourishing Loskop Valley irrigation scheme, on the southern tip of the majestic Limpopo province.

This family-owned farm, which features incredible views, is synonymous with offering unparalleled quality products to its global customer base for the past 50 years. The acclaimed farm specialises in the production and export of table grapes and citrus, spreading over nearly 3,000 hectares. The produce is well sought after by local and global consumers in over 60 countries.

Schoonbee Landgoed has recently embarked on a journey to bring our export quality produce directly to South African consumers, at lekker local prices. Part of this journey entails producing premium by-products from our exclusive fresh produce. Schoonbee Landgoed has already succeeded in producing a range pure citrus juices – grown, pressed and bottled on the farm. Creating beautiful, crisp, dehydrated citrus wheels was the natural next step. Schoonbee Landgoed is proud to produce yet another top-class citrus product, using only the best fruits from the variety of cultivars available
on the farm.

BEAUTIFUL, CRISP, SEEDLESS CITRUS WHEELS

Made with only the best, export grade produce

Schoonbee Landgoed carefully selects only our export grade, food safety accredited citrus is for dehydration. These healthy fruits are dehydrated at their peak, bringing you the best of the harvest season, all year round.

Schoonbee Landgoed maintains the international BRC and Global Gap accreditation for food safety, which is required to export fruit into international markets. Using only export quality fruit for dehydration means that consumers have the assurance that our citrus products are within the highest global food safety standards as measured by independent laboratories. This includes the peace of mind that there are no banned substance residues found on our fruit.

Citrus fruits graded for export also feature superior appearance and internal quality, resulting in a taste experience like no other. These unique features result in beautiful, crisp and tasty citrus wheels. Our premium citrus cultivars are consistently sliced and dehydrated with care in small batches on the farm. Using only pure lemon juice as preservative, these healthy snacks have no sugar or sulphur dioxide added.

ADD A TOUCH OF CITRUS

Harvested at its peak, enjoyed all year round

Schoonbee Landgoed produces dehydrated citrus from Mandarins, Cara Cara Oranges and Seedless Lemons with more exciting citrus, and other fruits in development.

Add a touch of citrus to your favourite summer drink or infuse a winter tea mixture with zesty flavours. Add a final flourish to your cakes, deserts, cheese boards or breakfast yogurt. So much more than just a condiment - these citrus wheels can also be enjoyed as a healthy alternative to conventional oil-baked crisps. Enjoy the perfect natural balance between sweet, sour and bitter - all year round.

CONSUMER, WHOLESALE AND BULK OFFERINGS

Enjoy our premium dehydrated citrus in a packaging format that suits your needs.

Whether you are looking for a unique and healthy snack to stock in your retail shop, or bulk dehydrated citrus for your hotel, restaurant or bar, Schoonbee Landgoed has a packaging solution for you. Giving you the benefit of consistent year-round supply, this premium product will be a constant delight, elevating your retail, wholesale or hospitality offering. With extended shelf life, our dehydrated citrus will impress your customers' senses all year round.
