UNPARALLELED QUALITY DEHYDRATED CITRUS

Made with love in the Loskop Valley

Schoonbee Landgoed is situated in Groblersdal, nestled in the heart of the flourishing Loskop Valley irrigation scheme, on the southern tip of the majestic Limpopo province. This family-owned farm, is synonymous with offering unparalleled quality products to its global customer base for the past 50 years. We specialise in the production and export of table grapes and citrus, spreading over nearly 3,000 hectares. The produce is well sought after by local and global consumers in over 60 countries.

Schoonbee Landgoed embarked on a journey to bring our export quality produce directly to South African consumers, at 'lekker' local prices. Part of this journey entails producing premium by-products from our exclusive fresh produce. We have already succeeded in producing a range pure citrus juices – grown, pressed and bottled on the farm. Creating beautiful, crisp, dehydrated citrus wheels was the natural next step.

We believe exceptional dried citrus begins long before dehydration. It starts in our orchards, where generations of farming experience, careful cultivation and a passion for quality produce some of South Africa's finest citrus.

We carefully select our fruit at its peak, understanding that each variety has its own unique qualities and that every part of the fruit deserves thoughtful attention. For our premium dried citrus wheels, we select fruit for its beautiful appearance, vibrant colours and distinctive natural flavours. Carefully sliced and gentlydehydrated, our citrus wheels bring an elegant finishing touch to drinks, culinary creations and everyday enjoyment.

PREMIUM CITRUS, CRAFTED WITH CARE

Beautiful, crisp citrus wheels. Premium citrus peel ingredients. Made from the finest fruit, selected with purpose.

For our expanding range of premium dried citrus peel ingredients, we apply the same care and expertise to create peel ribbons, carefully graded cuts and fine citrus powders. These products are developed for customers who value natural flavour, consistent quality and reliable specifications for their food, beverage and botanical applications.

Behind every product is our unwavering commitment to food safety, traceability and internationally recognised quality standards. Our approach is supported by GLOBALG.A.P., SIZA, and BRCGS standards applicable to our certified operations, along with careful quality controls and independent testing.

Whether selected for its beauty or its functional qualities, every product reflects the same philosophy: making the most of nature's harvest without compromising the standards our customers trust. From our farm to your creations, with the care and quality that define Schoonbee Landgoed.

ADD A TOUCH OF CITRUS

Harvested at its peak, enjoyed in so many ways.

From vibrant Mandarins and Blood Oranges to beautifully fragrant Lemons, Limes and other carefully selected citrus varieties, we bring the very best of each harvest to life in our premium dried citrus range. Our premium citrus wheels bring natural color, distinctive flavors and a touch of elegance to your favorite drinks, teas, desserts and culinary creations. Beautiful enough to garnish a special occasion, yet wonderfully simple to enjoy as a naturally crisp citrus snack.

But citrus offers more than beauty. Our expanding range of premium citrus peel ingredients: from carefully prepared ribbons and graded cuts to fine citrus powders, opens up a world of possibilities for food, beverage and botanical applications. We thoughtfully process each product to preserve the natural qualities that make the fruit special, with the consistency and quality our customers can trust.

FROM RETAIL SHELVES TO SPECIALISED INGREDIENTS

Premium citrus, thoughtfully prepared for different needs.

We take pride in knowing our products reach so many different hands, places, and creations around the world.

For retailers, distributors, and general stockists, our premium dried citrus wheels offer a beautiful, naturally appealing product in retail-ready packaging. Carefully selected fruit, consistent quality, and trusted food safety practices give you the confidence to share our products with your customers, and the pride of knowing where they come from.

For wholesalers, importers and hospitality partners, we offer bulk supply options that bring the same care, quality and attention to detail to a wider range of professional applications.

And for specialized food, beverage, and botanical industries, our expanding citrus peel capabilities open the door to exciting new possibilities. We understand that different applications call for different qualities, cuts and specifications.

Rather than offering a one-size-fits-all solution, we welcome the opportunity to understand your unique requirements and explore how we can bring our fruit, expertise, and processing capabilities together to meet them. Whether you are looking for an established premium citrus product or exploring a new ingredient application, we would love to hear from you. Let's explore what we can create together.

With love from our farm to you ...

SCHOONBEE™ LANDGOED

unparalleled quality

"Love is a fruit in season at all times and within the reach of every hand. Anyone may gather it and no limit is set."
